Health Rules and Regulations For Delaware Livestock Shows

An official health certificate from the state of origin, signed by an accredited veterinarian, shall accompany all animals from outside the state of Delaware. The health certificate shall contain the name and address of the owner, an accurate identification by ear tag, registration number, microchip, or tattoo of each animal(s) and shall indicate the health status of the animals, including results of any required tests. Health certificates shall be void thirty (30) days after issuance. *Delaware will accept the state of Maryland's Intrastate Health Certificate for this show provided it has been checked and signed at a Maryland show within thirty(30) days.*

Cattle: Health certificate with animal identification listed. All cattle must have US Official animal identification. No tests required if animals are from a Brucellosis and TB Free State or from a certified and accredited herd. Herd numbers and last test date must be included on the health certificate. All other animals, not from a free state, over six (6) months of age must have a negative brucellosis and TB test within thirty (30) days.

Swine: Health certificate with animal identification listed. All swine must have US Official Animal Identification. No Brucellosis test required if animals are from a Brucellosis free state. No Pseudorabies test required if animals are from a pseudorabies free(stage V) state or from a PRV Qualified Negative Herd; herd number and last test date shall be on the health certificate. All other animals, not from a free state, over six (6) months of age shall have a negative brucellosis and pseudorabies test within thirty (30) days. *Statement on health certificate stating that these swine have NOT been fed any raw garbage. Statement on health certificate stating "To the best of my knowledge, swine represented on this certificate have not originated from a premises known to be affected by Porcine Epidemic Diarrhea virus (PEDv)."*

Sheep: Health certificate with animal identification
Statement on health certificate stating there has been no evidence of any infectious or contagious disease including foot rot and sore mouth and there has been no scrapie reported in this flock for the last four(4) years. All females and intact males must have official scrapie identification.

Goats: Health certificate with animal identification
No tests required if from a Brucellosis and TB free state or from a certified and accredited herd. Herd number and last test date must be included on the health certificate. All other animals, not from a free state, over six (6) months of age must have a negative brucellosis and TB test within thirty(30) days. All females and intact males must have official scrapie identification.
