### 4-H Youth Development

Sussex County - Rene Diaz  **Internship# ES18-4**

**Specific job responsibilities for the Extension Scholar:**

Work with the 4-H Afterschool Program in Sussex County assisting with logistics, Office of Child Care Licensing (OCCL) compliance, hands on 4-H activities and other duties as arise.

---

### 4-H Youth Development

Kent County - Kristin Cook  **Internship# ES18-5**

**Specific job responsibilities for the Extension Scholar:**

Assist in the planning, management and delivery of summer programming. This includes:

- Kent County 4-H Day Camp,
- Delaware 4-H Environmental Camp,
- Delaware State Fair (judging contests, archery contest, livestock auction etc).

**Please be clear that scholar will be expected to travel to Dover office for assignment.**

---

### 4-H Youth Development

New Castle County - Breanna Banks  **Internship# ES18-6**

**Specific job responsibilities for the Extension Scholar:**

Extension Scholar will:

- Teach Up for the Challenge Fitness and Nutrition Program in summer camps
- Help to develop new fitness lessons, enter evaluation data
- Create “Grab-N-Go” handouts, and participate in the developing teen educators.

---

### 4-H Youth Development

New Castle County and Kent County - Doug Crouse  **Internship# ES18-7**

**Specific job responsibilities for the Extension Scholar:**

- Assist with statewide 4-H initiatives
- Assist with preparation of work and operations of the Delaware State Fair 4-H Department
- Assist with NCC 4-H Day Camp
- Participate in other Cooperative Extension experiences available during the summer
### 4-H Youth Development
Kent County - Susan Garey  **Internship# ES18-8**

**Specific job responsibilities for the Extension Scholar:**
- Assist with program development for summer camps
- Assist with publicity and outreach
- Assist with social media and video content development
- Assist with state fair events
- Assist with fall and winter program planning, social media and video skills a plus in addition to animal science experience

### Agriculture and Natural Resources
Kent County - Jenn Volk  **Internship# ES18-9**

**Specific job responsibilities for the Extension Scholar:**
Assist with developing and delivering education and outreach on environmental issues, including climate change, in Delaware and the region.

### Agriculture & Natural Resources
New Castle County - Bill Cissel  **Internship# ES18-10**

**Specific job responsibilities for the Extension Scholar:**
Assist the Extension IPM Agent with planning and implementing Extension demonstrations and applied research projects. More specifically, responsibilities include:

- Assisting the IPM Agent and Extension Weed Specialist with projects demonstrating the role cover crops play in reducing slug injury on corn and soybeans and the additional weed control benefits cover crops provide.
- Participate in a survey of crop fields throughout the state to monitor insect pest populations so that growers can be alerted of potential pest outbreaks. Crop scouting techniques will be used to sample fields and an IPM approach will be practiced. This is a great opportunity to gain valuable, hands-on experience with identifying insects and the damage they cause.
- Collaborate with producers to monitor beneficial insects and pests in high tunnel production.
- Create educational materials such as Youtube videos, photo libraries, Extension Fact Sheets.
- Share demonstration and research results at grower meetings and field days.
- Assist the IPM Agent with conducting applied research on the management of various insect pests of vegetable and field crops.
- Assist the IPM Agent with conducting applied research on managing insect pests using Organic farming practices.
### Agriculture and Natural Resources

Sussex County - Emmalea Ernest  **Internship# ES18-11**

**Specific job responsibilities for the Extension Scholar:**

Assist with establishment and/or data collection from vegetable and fruit research plots. Assist with planning, advertising and holding Blueberry Research Field Day in July. Develop an online and print photo gallery of 23 blueberry varieties currently being tested. Conduct one independent experiment related to heat stress mitigation or adaption for vegetable crops and compile and analyze data.

Specific experiments planned for the 2018 season that the Extension Scholar will assist with include:

- Testing heat stress mitigation strategies (i.e. shade cloth, particle films, plant growth regulators) for vegetable crops
- Evaluating vegetable varieties for heat stress tolerance (snap bean, cantaloupe)
- Variety trials to evaluate yield and quality (peas, lima beans)
- Testing effects of lima bean leaf shape on yield, heat stress and disease avoidance

### Agriculture and Natural Resources

New Castle County - Christy Mannering  **Internship# ES18-12**

**Specific job responsibilities for the Extension Scholar:**

Assist with developing a Delaware Extension web presence on disaster preparation and response topics. The student will report directly to our Digital Media/Communications Specialist who will assist with creating page layouts, editing and uploading factsheets, and linking to outside materials.

- The student will spend time throughout the summer supporting each of our program areas under the direction of our four Program Leaders (4-H; Family and Consumer Sciences; Agriculture; and Horticulture).
- The student will review, edit and update existing UD Extension materials in each of the program areas related to disaster preparation and response; identify resources developed by other organizations that are appropriate to Delaware and link to them; and when necessary, "Delawarize" outside resources.
- The student will ideally have excellent writing and editing skills and be comfortable working in Wordpress.
