Keeping your beautiful garden safe from deer is as simple as choosing the right plants. In 50 Beautiful Deer-Resistant Plants, gardening expert Ruth Rogers Clausen introduces the most versatile and drool-worthy options. Illustrated throughout with full-color photographs of every plant, this inspiring guide offers everything a plant-lover with a deer problem needs to know. In addition to the 50 best annuals, perennials, bulbs, ferns, grasses, and shrubs — plus advice on how to grow them — Clausen includes dozens of deer-resistant companions and smart design tips for pulling it all together. And here’s the best part: your gorgeous garden will be irresistible to everyone but those pesky deer.

Ruth Rogers Clausen, a horticulturist trained in England, has been living and working in United States for many years. Over her long career she has taught and lectured widely. Former horticulture editor for Country Living Gardener, she has written several books, including Perennials for American Gardens, co-authored with the late Nicolas H. Ekstrom and Dreamscaping.

Books will be available for purchase, price approximately $20. Cash or checks only.
